PURITAN
OIL *Cleveland*
HEATING
STOVES

FOR THE
FALL AND WINTER
1894 1895

FUEL FOR 

PURITAN

OIL

HEATERS.

We use only the best grades of Kerosene or Coal Oil, the same as for house lamps.

This oil may be had at any grocery, is cheap and may be purchased in as small quantities as one wishes.

When the room is heated the fire may be extinguished or turned low at once, without having to burn out an unnecessarily large amount of fuel as one has to do with a coal or wood stove.

The instant you light the stove it is going full blast and you don't have to wait for the fire to "get started."

There are no ashes to carry out and no heavy coal hods to carry in.

You are never afraid of your lamp and an oil heater is safer still, for there is no glass to be broken.

PURITAN
OIL HEATER
No. 44.

PRICE, - - - \$5.00.

No. 44.
PURITAN
OIL HEATER.

DESCRIPTION.

Height, from floor to top of ornament, 31 in.

Diameter of heating drum, - - - 7 "

Size of wick in circumference, - - - 6½ "

Cast iron reservoir, Russia iron drum, brass burner, finished in nickel and black enamel. Reservoir holds three quarts and will burn 10 to 12 hours.

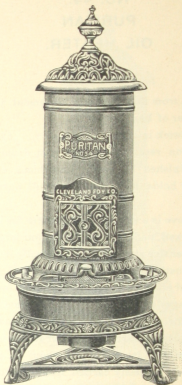

This stove is a very powerful heater for its size, and is as well made in every way as our larger and more expensive stoves. It is especially designed to heat bath rooms, bed rooms, small sitting rooms and offices and is just the thing for summer cottages and camps in cool weather. It is suitable for all rooms up to 12 feet square and will comfortably warm even larger rooms in moderate weather. Its weight is about 25 pounds and it may be easily carried from one room to another, and does not require castors.

If the directions accompanying each stove are followed it will not smoke or smell or give any trouble whatever, and is absolutely safe.

All our heaters have a grate under the swinging top for heating or for cooking.

**PURITAN
OIL HEATER.**

No. 54.

PRICE, \$8.00

No. 54.
PURITAN
OIL HEATER.

DESCRIPTION.

Height, from floor to top of ornament, 35 in.

Diameter of heating drum, - - - 8 "

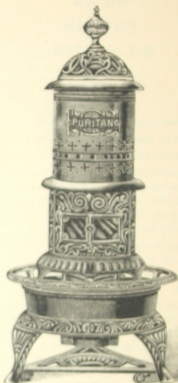

Size of wick, in circumference, - - - 8 "

Brass burner, Russia iron drum, cast iron reservoir, finished in nickel and black enamel. Reservoir holds four quarts and will burn 10 to 12 hours. A roller base is supplied with each stove without extra cost.

This stove is similar in construction to the one described on preceding page, but is larger in every way and is suitable for rooms from 12 to 15 feet square.

We desire to call special attention to the oil reservoirs in all the Puritan heaters which are made of cast iron and enameled inside and out. They will never leak or rust out and are not affected by the acids in the oil which will, in one or two season's use, eat through a sheet metal reservoir (you know how it is with your oil can) and become a source of danger as well as annoyance. We have added a safety feature this season which absolutely prevents any communication between the fire and the main body of oil in the reservoir, and for which we have applied for patent.

THE CLEVELAND FOUNDRY CO.

PURITAN
OIL HEATER,
No. 64.

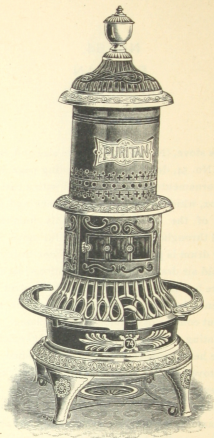

PRICE, - - - \$10.00.

No. 64.
PURITAN
OIL HEATER.

DESCRIPTION.

This stove, (No. 64) is the same size and capacity as No. 54, described on preceding page, but is more ornamental and is provided with a cast iron fire box, which adds to the appearance and durability of the stove. It is highly finished in nickel throughout and is a beautiful stove. The upper drum is provided with an inner lining and the cold air drawn into the perforations just above the fire box is thoroughly heated by contact with the inner drum and is discharged into the room without coming in contact with the flame. This circulating feature adds somewhat to the efficiency of the heater. A roller base is furnished with this stove without extra charge. The wick-raising device used in all our heaters and which raises and lowers the wick with absolute certainty, is the same as we used so successfully last season and is controlled by patent.

THE CLEVELAND FOUNDRY CO.

PURITAN
OIL HEATER,
No. 74.

PRICE, - - - \$12.00.

No. 74.
PURITAN
OIL HEATER.

DESCRIPTION.

Height, from floor to top of ornament, 39 in.

Diameter of heating drum, - - - 9 "

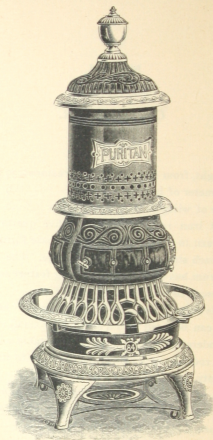

Size of wick, in circumference, - - - 10 "

Cast iron reservoir, holding five quarts and will burn 10 to 12 hours. A roller base furnished with each stove without extra charge. The heating drum has the same circulating feature as No. 64, described on preceding page.

This stove is a good "general purpose" heater, as it can be used with a low fire for small rooms in moderate weather, or will comfortably warm a large room in very cold weather if run to its full capacity.

All of our Puritan Oil Heaters are provided with our improved brass burners and the stoves are mechanically and thoroughly made.

THE CLEVELAND FOUNDRY CO.

PURITAN
OIL HEATER,
No. 84.

PRICE, - - - \$14.00.

No. 84.
PURITAN
OIL HEATER.

DESCRIPTION.

Height, from floor to top of ornament, 39 in.

Diameter of heating drum, - - - 9 "

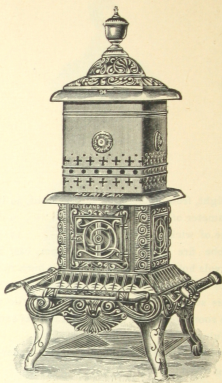

Size of wick, in circumference, - - - 15 "

Globe fire box, circulating drum, cast iron reservoir holding six quarts and will burn 10 hrs. Roller base furnished with each stove.

This stove is recommended for halls or very large rooms or where it is desired to heat several adjoining rooms with one fire.

Each stove is provided with a grate under the swing cover for heating water or cooking.

THE CLEVELAND FOUNDRY CO.

PURITAN
OIL HEATER,
No. 94.

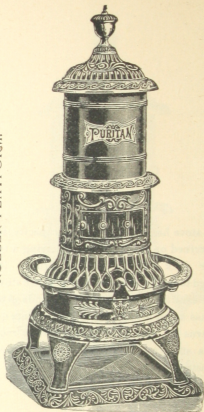

PRICE, - - - \$12.00.

No. 94.
PURITAN
OIL HEATER.

DESCRIPTION.

This stove has about the same capacity as No. 84, described on preceding page, having a 15 inch circular wick and circulating drum. It was designed to meet the demand for a square stove and is very beautiful in appearance. It stands 36 inches high, has a cast iron reservoir, holding six quarts, and burns 10 hours. No roller base is required for this stove as the two back legs are provided with caster wheels.

SPECIAL
ROLLER PLATFORM.

For price of Stoves, see preceding pages.

The roller base or platform shown here is large and more elaborate than the regular roller base furnished with the No. 74 and No. 84 Stoves. It is highly finished in nickel and is very ornamental. It has a large square drip pan, and the casters are out of sight.

WICKS.

IT IS VERY IMPORTANT that the wick in an oil heating stove be of the correct weave and texture and also of the proper thickness to suit the burner for which it is intended.

The Puritan Oil Heaters, when sent out from the factory, are supplied with proper wicks and are warranted to give satisfaction only when wicks furnished by the Cleveland Foundry Co. are used.

We will send extra wicks by mail, postage prepaid, at the following prices:

					EACH.	PER DOZ.
No. 44	Wicks for	No. 44	Stove,		10c.	\$1.00
No. 54	"	"	54	"	10c.	1.00
No. 64	"	"	64	"	10c.	1.00
No. 74	"	"	74	"	10c.	1.00
No. 84	"	"	84	"	15c.	1.50
No. 94	"	"	94	"	15c.	1.50

Full directions for trimming, adjusting or renewing wicks sent with each stove.

GUARANTEE.

ALL Puritan Oil Heaters are warranted
to give satisfaction, and if any stove
does not suit, send it back on the following
conditions.

Any Puritan Oil Heaters failing to prove
satisfactory may be returned within thirty
days from date of shipment and money
will be refunded without argument or
comment, the customer prepaying freight on
goods returned.

Parties desiring to exchange any of the
smaller sizes for larger, may do so any time
within 30 days by paying the difference in
price and the freight.

We have numerous testimonials and
can furnish them, but the above guarantee
is from the makers of the goods.
